

Register now for

the first ICSE Student Contest in Software Engineering

SCORE is a worldwide competition for teams of 2–7 undergraduate and/or master's level students, emphasizing the engineering aspects of software development (not only programming).

Class projects? Yes!

Multi-institutional and multi-national teams? Yes!

Fabulous prizes? Yes!

Including travel support to ICSE 2009 for representatives of finalist teams

Organizing Committee

Co-chairs

Mehdi Jazayeri, *U. Lugano, Switzerland*

Dino Mandrioli, *Politecnico di Milano, Italy*

Program Committee

Judith Bishop, *U. Pretoria, South Africa*

Jaelson Castro, *U. Federal de Pernambuco, Brazil*

Antonio Cerone, *UNU-IIST, Macau*

Sergio Cigoli, *Parvis, Italy*

Miguel Felder, *Pragma Consultores, Argentina*

Carlo A. Furia, *Politecnico di Milano, Italy*

Jean Hartmann, *Microsoft Research, USA*

Connie Heitmeyer, *Naval Research Laboratory, USA*

Katsuro Inoue, *Osaka University, Japan*

Pankaj Jalote, *IIT Delhi, India*

Michele Lanza, *U. Lugano, Switzerland*

Timothy C. Lethbridge, *U. Ottawa, Canada*

Dan Paulish, *Siemens Corporate Research, USA*

Nico Plat, *Formal Methods Europe*

Matteo Rossi, *Politecnico di Milano, Italy*

Tetsuo Tamai, *U. Tokyo, Japan*

Alan Wassyn, *McMaster U., Canada*

Michal Young, *U. Oregon, USA*

A variety of project topics proposed by the SCORE Program Committee are available on the SCORE website. (Self-proposed projects are not eligible for the competition.) Teams must register at the SCORE website before they start the project. Participating teams must be composed exclusively of students, either at the undergraduate or at the master's level (PhDs are not allowed to participate). Every team must have no less than 2 and no more than 7 members; however, teams are strongly advised to have no more than 5 members.

Teams may be formed and projects may be developed as part of a software engineering course. Also, they can be composed of students from different institutions.

Teams will submit full software products, covering the whole software development process. After a careful evaluation carried out by the SCORE Program Committee, several finalist teams will be invited to ICSE 2009 in Vancouver to present their projects and receive their awards at the conference.

Key dates

- December 2007–November 2008: Registration open.
- February 2008: Submissions of summary reports open.
- November 2008: Registration for participation closes.
- Mid January 2009: Submission for the summary reports closes.
- Mid February 2009: Selection of finalists. Between 10 and 20 teams will be asked to submit a final deliverable, which will be the basis for the selection of the finalists.
- End February 2009: Deadline for the submission of the final deliverable.
- End March 2009: Announcement of finalists (no more than 10), who will be invited to ICSE 2009.
- ICSE 2009 (May 2009): Final evaluation and presentation of awards.
